

Registered Independent Sales Organizations and Encryption Support Organizations

As of 01/30/10

The following Independent Sales Organizations (ISOs) types are listed below:

- **MERCHANT** – Provides merchant solicitation support, sales support, customer service, merchant transaction solicitation or merchant training.
- **CARDHOLDER** – Provides cardholder solicitation support, card application processing services and / or customer service.
- **PLUS / ATM** - Acts on behalf of a Visa client to deploy and / or service and / or maintain qualified ATMs.
- **INTERLINK** – Acts on behalf of a member for merchant solicitation, sales or service of Interlink capable POS terminals.
- **PREPAID** - Solicits other entities (e.g. merchant, corporate clients, government entities, other businesses) to sell, activate or load prepaid cards on behalf of an issuer. Prepaid card sales and / or activation is a primary function of their business.

Plus ATM and Interlink point-of-sale (POS) Encryption Support Organizations (ESOs) are also listed. ESOs perform services such as cryptographic key management, secure key injection and loading of encryption keys into ATMs or POS PIN-Entry devices (PEDs), and encrypting PIN pads. ESOs perform these functions in support of clients, their ATM programs, and the deployment of POS POS PEDs or PIN pads to clients' merchants.

Entities utilizing this list should perform their own additional due diligence to ensure that the service provider is also compliant with any additional requirements that the entity may have in place. Entities that store, process or transmit cardholder data must be registered with Visa and validate PCI DSS compliance. Entities that process PIN transactions or perform cryptographic key management, secure injection and loading of encryption keys into ATMs or POS PEDs must be registered with Visa. Additionally they must comply with the PCI PIN Security Requirements. Inclusion on this list does not indicate or imply that such entity is compliant with the PCI DSS or PCI PIN Security Requirements.
